WITH PURITY FLOUR

becomes even better. And even an inexperienced one can get satisfactory results. If the "girl" doesn't turn out good biscuits, bread or cake, don't blame her at once. It may be the flour. Order a sack of PURITY FLOUR to-day and note the result. It's dollars to doughnuts she will do better with her first baking from it.

Under the Log Cabin.

Judge Watts Parker has been formally nominated as the Republican candidate for Circuit Judge at Lexington and his nomination certified to the Secretary of State at Frankfort, preliminary to preparation of the official ballot.

It is generally believed that this means the first step toward an official ballot in Fayette with all of the so-called Fusion ticket under the log cabin, the official device of the Republican party.

The nomination of Judge Parker as the Republican candidate for Circuit Judge was consummated Saturday afternoon at a meeting of the Republican city and county committees at Lexington. The committee resolved itself into a convention, and besides nominating Judge Parker, named Col. H. T. Duncan and Mr. Charles C. Patrick as the Republican candidates for city and county representatives, respectively.

Every Democrat should register to-day.

Burley Pool Ratified.

At a meeting of the district committee of the Burley Tobacco Society at Winchester, the vote of the counties on the Burley pool was ratified. The official returns show 103,000 acres have been pledged. Unless there is a substantial increase in the pledges during the extension for signing until October 20, the feeling among growers is that the pool be declared on.

Young Men's Club.

The Young Men's Club meeting at the Christian church had an unusually fine attendance last Friday evening. Mr. A. H. Morehead, of the Paris School of Music, sang two selections that were much enjoyed by all. Mr. Morehead's rendition of "Sally in Our Alley" always makes a hit with the men and his other song "After" was beautiful and much appreciated.

Dr. S. W. Longan talked to the club about thirty minutes on "Wireless Telegraphy." In this brief time Dr. Longan made this interesting subject reasonably clear and was heartily commended by the members of the club.

For some time the men have thought that the program should contain something interesting from a practical and up-to-date standpoint, a little more weight. The program committee expects to meet this demand and thus boost the club along. For the next meeting the committee's motto will be "Something Better Still." The program finished, the men gathered around the tables cracked jokes and told stories and destroyed the refreshments so excellently prepared by the entertainment committee.

Meeting of Electric Light Stockholders.

The stockholders of the Paris Electric Light Company held a meeting Saturday to discuss the matter of putting on a day current in this city. They want to duplicate the present plant to make the desired improvements, which will cost in the neighborhood of \$12,000. The new stockholders are in favor of the improvements and it is now up to the old stockholders to join with them in this enterprise, and then Paris will have one of the most up-to-date electric light plants in Kentucky. A day current would be a paying proposition and it is truly hoped by our citizens that the new enterprising stockholders of this company will be assisted by the old stockholders in giving Paris the up-to-date and modern electric light plant so much needed in a city the size of Paris.
